This was the first announcement of a discourse by Dr. Hoge ever made in Richmond. Dr. Kerr then said that on the semi-centennial of Dr. Hoge's first sermon in Richmond, which was Sunday night, Dr. Hoge would again fill the pulpit of the First church.

Burglars Decamp-Three Men Arrested-They Wound a Policeman. COUNCIL BLUFFS, IA., February 25 .drilled the front door of the time-lock safe, put in dynamite, and closed the vault doors. Over \$400 worth of stamps belonging to the postmaster and \$120 in cash as known to have been taken, and probably other valuables. The burgiar-proof safe inside the vault contained \$30,000 in cash, but this was not touched.

Three men were arrested here this afternoon, supposed to have committed the burgiary. As they were being led to the jail they drew revolvers and fred. One policeman was badly wounded, and will probably die. One of the thieves escaped. One was shot.

Cuba's Trouble Growling.

HAVANA, February 25.—The apprehensions of a revolution are increasing. The Governor-General has put in effect the public-order law throughout the island. This law provides for the immediate punishment of anybody taken in a seditious act. Some twenty-four men have defied the authorities, and called for robel recruits at Ybarra, near Matanzas, and trouble is reported also from Ganatum.

MARTIAL LAW AUTHORIZED.

Some two hundred mules belonging to an American contractor were stopped by the custom officers at Tapachula. This morning the Foreign Office telegraphed a permit that the mules might go on. As the prohibition of the export of mules was a war measure, the government's action is regarded as a sign that all danger of open hostilities is past, although there is still friction between the two countries.

General Fits Lee's Suggestion.

(Norfolk Virginian.)

The Fredericksburg Free Lance recently published a letter from General Fits Lee expressing his views, in response to the request of the editor of the Free Lance, on the adaptability to the wants of Virginia of the Maryland ballot system. General Lee is of the opinion that the Maryland law will not answer in Virginia, and he asserts that "the honesty of the constable in our law is the honesty of the election." On the Walton law he speaks as follows:

"In this section I know the constable were selected with great care, and the every legal vote was counted as cast. If the Republicans so marked their ballots that under the law they could not be counted, it was owing to the fact they were told not to consult the contest bles, but to follow certain instruction, which they forgot. In the contest he tween Tucker and Yost at my precinct the negroes were told to scratch out every mame but the short one, Yost; and, on going to vote, some of them asked the judges for the short ticket, and finding the tickets of uniform length, got confused and did not know how to mark them."

General Lee is of the opinion that a deneral Lee is of the opinion that a solution of the questions now before the people of Virginia might be found as for-lows:

"Let each congressional district select, by a vote of its county and city Democratic chairmen therein, or otherwise, a Democratic representative to meet similar representatives and consider the whole question, and prepare proposed amendments to the present or former laws or frame a \*w law, which Democratic legislative candidates can stand pledged to vote for if elected,
"The present diversity of opinion on the suffrage question impairs Democratic prospects, 'In time of peace' we must 'prepare for war,' if we hope to win a victory."
